

# Wendy Azeneth Geronimo

Austin, TX, 78705 ▪ wgeronimo@utexas.edu ▪ 956-324-3059 ▪ www.linkedin.com/in/wgero ▪ waze98.github.io

## EDUCATION

### THE UNIVERSITY OF TEXAS AT AUSTIN

AUSTIN, TX

Bachelor of Science, Psychology ▪ Certificate in Elements of Computing

MAY, 2024

- Activities: Girls Who Code College Loops, Foundation Scholars Program, Mexican Americans in Engineering and Science, Machine Learning and Data Science Club, Sigma Lambda Alpha Sorority, Inc.
- Relevant Coursework: Introduction to **Statistics for Behavioral Sciences**, Advanced **Data Analysis and Methods** for the Behavioral Sciences

### LAREDO COLLEGE

LAREDO, TX

Associates of Arts, General Studies | **3.8 GPA**

MAY, 2021

- Activities: Phi Theta Kappa Honor Society, Dual Enrollment with Johnson High School
- Relevant Coursework: Macroeconomics, Introduction to Computing

## PROJECTS

### Personal Website (waze98.github.io) | Personal Project

APRIL-MAY 2022

- Utilized a personal website guide to develop, commit, and push personal website made by scratch to the version control Git platform
- Strategized on displaying certain content and layout based on importance, and researched marketing techniques to captivate users

### Oxytocin Affects Trust Compared to Risk-taking | Research Project

FEBRUARY, 2022

- Discovered that oxytocin plays a role in trust because of its high number of gambled credits based on the boxplot and higher mean in the plot of the means with error bars showing the 95% CIs
- Compared to risk-taking, both the boxplot and plot of the means with error bars showing 95% CIs overlapped, meaning that there wasn't a significant change

### Fear of Flying | Research Project

FEBRUARY, 2022

- Frequency polygon demonstrated fear and count of the two transportation nodes and concluded that people are more afraid of flying than driving
- Boxplot for the mode and fear concluded that flying had a larger median, and a larger mean displayed on the plot of the means with error bars showing 95% CIs; significant change

### Mystery Distribution | Research Project

FEBRUARY, 2022

- Frequency polygon illustrated a negative skew regarding the grades of an online quiz
- Plot of the means with error bars showing 95% CIs displayed that large sample sizes are better due to its precision since the mean was at 24, just like in the tibble

## EXPERIENCE

### PROJECT SEED | Research Assistant

JUNE, 2022 – AUGUST 2022

- Our goal is to understand how Mexican American children who translate for their parents on a regular basis are impacted as far as their development socially, emotionally, and educationally
- Interview, evaluate, and survey 50+ volunteers in their preferred language of either Spanish or English
- Transcribing English to Spanish and collecting, entry, and analyzing data

### SIGMA LAMBDA ALPHA SORORITY, INC. | Chapter Liaison

JANUARY, 2022 – PRESENT

- Collect, organize, and record information from 18 girls using Google forms and Google sheets
- Addressed my chapter's needs and accomplishments and collaborated with the national board of directors and other chapters by attending mandatory monthly national board of directors meetings on early Saturdays. Afterward, I contribute to the general and executive board agendas in a GoogleDoc to update the chapter
- Increased efficiency by maintaining the officer team's Google Drive and Gmail organized

## ADDITIONAL INFORMATION

**Technical:** Java, Python, Google Formats, Microsoft Office, R, RStudio, Tableau, REDCap (soon), GitHub, HTML, CSS, Bootstrap

**Languages:** Spanish (fluent), English (fluent)

**Awards:** Texas Excellence Scholarship (2021), UT for Me Dell Scholarship (2021), RaiseMe Scholarship (2021), W. A. James Scholarship (2021), San Antonio Area Scholarship (2021), Active Member in Women in Psychology (2021)

**Honors:** LC Summa Cum Laude (2021), LC Scholastic Achievement (2017, 2020), LC Dean's List (2018, 2021), Inducted to Phi Theta Kappa Honor Society (2021)
